# **Pupil premium strategy statement**

This statement details our school's use of pupil premium (and recovery premium for the 2023 to 2024 academic year) funding to help improve the attainment of our disadvantaged pupils.

It outlines our pupil premium strategy, how we intend to spend the funding in this academic year and the effect that last year's spending of pupil premium had within our school.

#### **School overview**

| Detail  | Data                                   |
|---|--|
| School name   | Beaulieu Village Primary               |
| Number of pupils in school  | 125                                    |
| Proportion (%) of pupil premium eligible pupils                         | 14.2% (FSM)<br>19% (Including service) |
| Academic year/years that our current pupil premium strategy plan covers | 21/22 - 23/24 (3 years)                |
| Date this statement was published                                       | October 2023                           |
| Date on which it will be reviewed                                       | October 2024                           |
| Statement authorised by   | Katherine Jones                        |
| Pupil premium lead  | Katherine Jones                        |
| Governor / Trustee lead   | Sally Needham                          |

## **Funding overview**

| Detail  | Amount  |
|---|---------|
| Pupil premium funding allocation this academic year   | £24195  |
| Recovery premium funding allocation this academic year  | £2030   |
| Pupil premium funding carried forward from previous years (enter £0 if not applicable)  | £0      |
| Total budget for this academic year   | £26,225 |
| If your school is an academy in a trust that pools this funding, state the amount available to your school this academic year |         |

### Part A: Pupil premium strategy plan

#### Statement of intent

Our intention is that all children, irrespective of their background or the challenges they face, make good progress and achieve high attainment across all subject areas. The focus of our pupil premium strategy is to support disadvantaged children to achieve that goal, including progress for those who are already high attainers.

We will consider the challenges faced by vulnerable children, such as those who have a social worker and young carers. The activity we have outlined in this statement is also intended to support their needs, regardless of whether they are disadvantaged or not.

#### We believe:

\*High quality teaching is vital, rather than interventions to compensate for poor teaching – by focusing on improving the quality of teaching we will improve outcomes for all children, but particularly our most vulnerable

\*Where 'additional to and/or different from' is required evidence should be used to allocate funding to 'high-impact' strategies, based on research from reputable sources \*The welfare and progress of children in receipt of pupil progress is a core responsibility of governance; governors must be routinely involved

#### **Challenges**

This details the key challenges to achievement that we have identified among our disadvantaged pupils.

| Challenge number | Detail of challenge   |
|------------------|---|
| 1                | Potential for <b>lower expectations</b> of pupil premium children to impact negatively on educational outcomes – children may be more likely to have <b>lower attainment</b> or struggle in particular areas  |
| 2                | <b>Limited money</b> to fund extra-curricular activities reduces opportunities. Access to technology and educational materials may also be limited  |
| 3                | Potential for disadvantaged children to be less engaged in learning and display <b>poor metacognition</b> and <b>self-regulation skills</b> (learning to learn skills, independence and resilience)   |
| 4                | Our assessments and observations indicate that the education and well-<br>being of many of our disadvantaged children have been impacted by<br><b>partial school closures</b> to a greater extent than for other pupils.<br>These findings are supported by national studies. |

|   | This has resulted in significant knowledge gaps leading to pupils falling further behind age-related expectations, especially in the core subjects.  |
|---|--|
| 5 | Research shows that disadvantaged children may not develop phonological awareness and vocabulary at the same rate as others , due to exposure to <b>fewer words spoken</b> and <b>books read at home</b> |
| 6 | Wellbeing, mental health and safeguarding concerns are likely to be more prevalent   |

## **Intended outcomes**

This explains the outcomes we are aiming for **by the end of our current strategy plan**, and how we will measure whether they have been achieved.

| Intended outcome  | Success criteria   |
|---|--|
| All staff will be aware of who are disadvantaged children are and have high expectations that impact positively on educational outcomes and wellbeing.  | Disadvantaged children will make at least expected progress and have equal opportunities to access wider curriculum opportunities when compared to non-disadvantaged children  |
| Use of Little Wandell (phonics/reading) Scheme will result in all children learning to decode well and to read in line with age related expectations.   | Disadvantaged children will receive high quality phonics teaching, interventions and vocabulary teaching enabling them to read at least in line with age related expectations. |
| Reading comprehension strategies will be well taught in guided reading sessions.  | Disadvantaged children will acquire the necessary skills for reading and understanding challenging texts.  |
| Targeted 1:1/small group maths tuition will enable disadvantaged children to make effective progress.   | Children at risk of falling behind will be supported to make accelerated progress.   |
| Disadvantaged children will be supported by responsive use of the school's Heartsmart programme, with additional ELSA support provided where necessary, so that key social and emotional skills are taught. | Disadvantaged children will show improved attitudes to learning.   |

# Activity in this academic year

This details how we intend to spend our pupil premium (and recovery premium funding) this academic year to address the challenges listed above.

### **Teaching (for example, CPD, recruitment and retention)**

Budgeted cost: £15,225

| Activity  | Evidence that supports this approach                                | Challenge<br>number(s)<br>addressed |
|---|---|-------------------------------------|
| All staff to ensure high expectations and standards for pp children Sally Needham will oversee and monitor provision for pupil premium children   | Research shows low expectations can lead to poor outcomes           | 1 - 6                               |
| In school Katherine Jones will lead and manage pupil premium provision ensuring that  | EEF Effective<br>Feedback/Quality<br>First Teaching (+ 9<br>months) |                                     |
| - all staff are aware of which children are eligible for pupil premium  |   |                                     |
| - all staff make use of assessment to track the progress of pupil premium children  |   |                                     |
| - all staff ensure that day to day teaching meets the<br>needs of pupil premium learners and that feedback to<br>pupil premium children is specific, accurate and clear   |   |                                     |
| - in each class, pupil premium children's needs are identified and met, including those of more able pupil premium children through planned additional support  |   |                                     |
| - all staff actively target pupil premium children to ensure<br>that they have opportunities to engage and take part in<br>wider extra-curricular opportunities and resources<br>required to achieve well. For example, staff to monitor<br>extra-curricular opportunities inside and outside of school |   |                                     |
| - Pupil Premium funding is used to support additional activities and resources e.g., additional workshops, purchase of equipment, uniform, resources for use at home (see below)  |   |                                     |
| - Performance Management is linked to pupil premium children  |   |                                     |

| Ins         | se of Little Wandel Phonics Scheme school, Rachael Burt will lead and manage phonics and ding ensuring that  On-going CPD is provided for staff to ensure confidence and strong subject knowledge Range of Little Wandel books is extended All emerging readers have access to books, resources and teaching which are well matched to their existing skills and knowledge  Keep Up and Catch Up programmes are in place for children of all ages who need them | EEF Phonics (+ 5 months)   | 1,3,4 and<br>5 |
|-------------|---|--|----------------|
| -<br>-<br>- | Support from English advisor to further refine approach to guided reading Questioning Metacognitive talk to model strategies Use of graphic or semantic organisers (maps, webs, graphs, frames)   | EEF shows disadvantaged children less likely to own books and acquire necessary skills for understanding challenging texts | 1,3,4 and<br>5 |
| ha          | rrect letter formation and fluent indwriting taught effectively and in age propriate ways for all children  Letter formation/handwriting practised daily in all classes following whole school approach High expectations of handwriting and presentation in place for all children Children encouraged to take a pride in the presentation of their work (presentation awards)   | OFSTED focus – research shows high expectations of presentation impact learning and standards                              |                |

# Targeted academic support (for example, tutoring, one-to-one support structured interventions)

Budgeted cost: £1,000

| Activity   | Evidence that supports this approach    | Challenge<br>number(s)<br>addressed |
|--|---|-------------------------------------|
| Improved task design to enable mastery for lower attaining children in maths                       | EEF Mastery<br>Learning (+ 5<br>months) | 1,3 and 4                           |
| Provide teaching which focuses on breaking learning into small steps                               |   |                                     |
| - SENCO surgery (supported by EP) to support class teachers' planning for children to meet success |   |                                     |
| - Maths lead surgery   |   |                                     |

# Wider strategies (for example, related to attendance, behaviour, wellbeing)

Budgeted cost: £10,000

| Activity  | Evidence that supports this approach                      | Challenge<br>number(s)<br>addressed |
|---|---|-------------------------------------|
| Responsive use of Heartsmart and ELSA/nurture support  To enable children to improve  - Self-awareness  - Self-regulation  - Social/relationship skills  - Responsible decision making  Nurture support for targeted children in school  ELSA provided by Youth and Families Matter | EEF Metacognition<br>and self-regualation<br>(+ 7 months) | 6                                   |

Total budgeted cost: £26,225

# Part B: Review of outcomes in the previous academic year

### **Pupil premium strategy outcomes**

This details the impact that our pupil premium activity had on pupils in the 2021 to 2022 academic year.

1 child out of 2 in receipt of pupil premium met the expected standard in all three subjects at the end of KS2 and 2 out of 4 met the expected standard in all three subjects at the end of KS1.

Further targeted intervention will be required in Years 3 and 4 this academic year, including continued systematic phonics teaching and Little Wandle reading squads and Catch Up. There are still gaps to be filled in terms of developing fluent reading, age-appropriate spelling and handwriting and basic number skills/fluency in maths.

Nurture support will be required for disadvantaged children in Years 2 and 4.

2 out of 2 disadvantaged children achieved the expected standard in the Year 1 phonics screening test and 5 out of 5 passed the Year 4 multiplication tables check.

6 pupil premium children received targeted support to access wider extra curriculum opportunities including Breakfast Club, After School Club and music lessons.

Targeted one to one or group support supported those with lower prior attainment or at risk of falling behind to make accelerated progress in maths.

Disadvantaged children in receipt of support showed improved attitudes and behaviour for learning.

Attendance for all children and especially our most vulnerable continues to be a major priority.
