The National Pupil Database (NPD)

The NPD is owned and managed by the Department for Education and contains information about pupils in schools in England. It provides invaluable evidence on educational performance to inform independent research, as well as studies commissioned by the Department. It is held in electronic format for statistical purposes. This information is securely collected from a range of sources including schools, local authorities and awarding bodies.

We are required by law, to provide information about our pupils to the DfE as part of statutory data collections such as the school census and early years' census. Some of this information is then stored in the NPD. The law that allows this is the Education (Information About Individual Pupils) (England) Regulations 2013.

To find out more about the pupil information we share with the department, for the purpose of data collections, go to <https://www.gov.uk/education/data-collection-and-censuses-for-schools>.

To find out more about the NPD, go to <https://www.gov.uk/government/publications/national-pupil-database-user-guide-and-supporting-information>.

Organisations fighting or identifying crime may use their legal powers to contact DfE to request access to individual level information relevant to detecting that crime. Whilst numbers fluctuate slightly over time, DfE typically supplies data on around 600 pupils per year to the Home Office and roughly 1 per year to the Police.
